```

I'm a seasoned Software and Web Developer with deep expertise across modern frameworks, scalable architecture, and user-focused design. I specialize in building performant front-end systems in React and Next.js, while also architecting custom APIs and backend logic using Node.js and PHP.

I've developed and consumed REST and GraphQL APIs to power dynamic user interfaces and integrate deeply with CMS platforms like Drupal and WordPress. Whether building reusable components, structuring data models, or deploying full-stack solutions, I bring both creativity and technical precision to every project.

> Experience...

Front-End Developer

Grand Canyon Education - Remote | 2020 - Present

- Led development of scalable, component-based UI systems using React and Next.js
- Integrated front-end components with Drupal, WordPress, and custom APIs
- Reduced dev time 70% by architecting reusable components and pattern libraries
- Contributed to code reviews, technical documentation, and cross-functional project planning
- Improved cross-team workflows through collaboration and architecture input

Director of Design & Development

DSGN Co. - Denver, CO | 2010 - 2020

- Founded and led a creative studio focused on crafting human-centered digital experiences
- Delivered end-to-end design and development solutions including branding, UI/UX, and full-stack web builds
- Built and maintained bespoke WordPress themes, plugins, and front-end interfaces
- Led multidisciplinary collaborations across design, engineering, and business stakeholders
- Oversaw 100+ successful client projects from concept through launch

Senior Web Developer

Allis, Inc. - San Francisco, CA | 2015 - 2016

- Partnered with a boutique SF agency to deliver immersive, high-end WordPress websites
- Designed RESTful APIs and engineered custom SQL databases for scalable content systems
- Developed backend logic to support dynamic user experiences and real-time content integrations
- Worked closely with designers to align high-end visual concepts with performant front-end implementation

Adjunct Professor of Design

Arizona State University - Tempe, AZ | 2007 - 2014

- Taught undergraduate and graduate courses in Graphic Design and Web Development
- Emphasized Bauhaus principles, systems thinking, and design problem solving
- Mentored students in typography, layout, visual systems, and responsive design techniques
- Developed coursework integrating design theory, modern tech, and real-world applications

Interactive Designer

Fender Musical Instruments - Scottsdale, AZ | 2006 - 2011

- Led design and development of digital experiences for product marketing and artist campaigns
- Owned project delivery for the Fender.com global relaunch, collaborating with stakeholders and partners
- Worked with high-profile brands (Toyota, T-Mobile, Warner Bros) and artists (Clapton, Gilmour, Van Halen)
- Ensured cohesive design execution across creative, development, and global marketing initiatives

JEREMY WAYNE
SOFTWARE ENGINEER

hello@dsgn.co | Denver, CO
www.dsgn.co

> Skills...

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), SvelteKit, Vue, HTML5, CSS3/SCSS, Tailwind, Motion/Animation, Accessibility (WCAG)

Backend: Node.js, Prisma, PHP (v5-8), Supabase, Express, WordPress (Custom Plugins, Blocks, Themes), MySQL

CMS Integration: Drupal (Custom Modules, Paragraphs), WordPress (ACF, Block Editor), JSON API, Headless CMS, Custom Data Models

APIs: REST, GraphQL, Custom Endpoints, Postman

Tooling & Build: Git, GitHub, Composer, NPM, Webpack, Vite, Storybook, Babel, Lint, Shell/CLI, VS Code

Design & UX: Figma, Adobe Creative Suite, Typography, Wireframing, Prototyping, Component Libraries

Workflow: Agile/SCRUM, Jira, Azure DevOps, GitHub Projects, Documentation-First, Sprint Planning, DevOps-Aware (build pipelines, environments)

> Proficiencies...

- Architect modular, reusable component systems in React/Next.js
- Build and integrate APIs using Node.js, PHP, and Supabase
- Extend Drupal and WordPress with custom modules, plugins, and themes
- Design filtering systems and data-driven UIs powered by REST/GraphQL
- Prototype, test, and iterate UX in Figma with a design-dev workflow
- Deliver production-ready, accessible code with UX-led workflows

> Education...

Arizona State University - Tempe, AZ | 2002 - 2006
B.S. Visual Communication Design - Magna Cum Laude
School of Architecture & Environmental Design

> Honors...

Speaker - Future Frontiers Conference, Austin, TX
Design Director - Phoenix Design Week
CSS Feature - type.dsgn.co
Creative Direction - Fender Hall of Fame
MLK "Passion" Contest Winner - Innovation Space
